Dr. Joshua Lederberg
300 Pasteur Drive, RM. S-337
Palo Alto, Calif. 94304
U.S.A.

Dear Joshua,

Thanks for your letter. We are as happy this time when you announce your possible visit to Copenhagen as we were in September last year.

We should very much like to see you once again in Copenhagen. We have rather much space in our new home and, if you like, you are welcome to stay with us. If you prefer a hotel, please tell us.

We have taken steps to have sent to you a Dansk catalogue, though we are not sure whether brother Torben sells the Danske products any more. If the trays you mention are those rectangular ones with formica and with oak frame, they are of his own production, and those we can supply you with (at whole sale price).

We had better give you our travel plans for the near future:

April 20-23: East-Berlin
May 6-7: Gothenburg, Sweden
May 12-15: Sweden
June 19-22: Congress in Copenh. making us rather busy
June 25-Jul.1: Bergen, Norway
July 8-31: Corsica, summer vacation

Our Addresses are:

- 1) Statens Seruminstitut, Artager Boulevard 80, Copenh. S
Telf. ASTA 2817, ext. 334.
- 2) (Home) Marielystvej 20, Copenhagen F.
Telf. (01) 744989 - 744989

We have been very much interested in hearing about your new job as columnist and agree certainly about your ideas concerning the virus vaccines. We shall probably try to get copies of the Sunday Washington Post, as far as I remember there is a Paris edition which we can get here.

We hope very, very much that we can be looking forward to seeing you again.

Sincerely

Fik and Bz
